GREETINGS, IRIS LOVERS EVERYWHERE

It looks as though we are going to have a fine growth this season, although we had some very rough weather in January and February, as you have read about. The Iris are growing fine now and should start blooming about the first of May.

For you who expect to be in our vicinity in the month of May, we ask that you pay us a visit. Our Gardens are at 3600 North Peoria Street, just outside the Tulsa city limits.

We do not have the biggest catalogue that you will receive this year, nor the biggest listing, nor do we claim to grow the best rhizomes of all. There is no BEST. They are all good, and they grow equally well in any section of the country. We know, for we have bought from all sections, and we have been satisfied. Let us say right here that we firmly believe that every grower will try to give you his best and serve you well.

Last year we shipped to all sections of the country and to far away Hawaii. We wish to thank each and every one of you for your fine orders sent us last year. We also appreciate the many cards and letters from you thanking us for the nice rhizomes you received, as well as the extras we included. Let us hear from you again about them.

TERMS

Cash with order. Make all checks and money orders payable to EASON'S GARDENS. Stamps are not acceptable.

All orders will be prepaid. No order accepted under \$2.00.

GUARANTEE

All Iris guaranteed to be true to name.

Orders filled in rotation, early orders will receive the pick of the rhizomes.

Our rhizomes must meet with your approval, or your money will be refunded, in which case we will pay return postage.

Any variety that proves untrue will be replaced on report from you.

PLEASE READ CAREFULLY

Shipments to start about July 5th and will continue to late fall.

By allowing us to ship at our convenience we will include free Iris with each order.

SEEDLINGS

In the past ten years we have grown countless thousands of seedlings, and have discarded all the "JUNK," and are now offering the remaining beauties to beautify your garden at a very low price. Remember these are all choice seedlings equal to many high priced varieties now in commerce.

10 Choice Seedlings, \$5.00 Postpaid

If you wish certain colors let us know and we will try to fill your order accordingly. If you want to know the parentage add \$1.00 to your order to help cover cost of extra time and labor required to tag your plants with this information.

SELECT IRISES

ACTION FRONT (Cook, '42). Big, bright and bold coppery red ----- **\$1.50**

ALASTOR (Spender, '40). Deep pink.

Rich golden center and beard ---- **75c**
